

Mueller Streamline® Copper Tubing

Our oil lines are made of genuine Mueller Streamline® dehydrated and nitrogen purged sealed copper tubing. It is of a consistent dead soft temper, bright, and thoroughly dried. A cleaning and drying process removes moisture and contaminants and is manufactured in accordance with ASTM-B-280 and ANSI-B9.1 refrigeration industry standards. We do the field work for you...we cut, add flair nuts, flair each open end, & package. We offer a variety of lengths to meet your needs!
