

STOKKERMILL™ 5000 Std

The Stokkermill 5000STD is ideal for medium to large recycling companies which process large quantity of cables. Expansion opportunities as pre-grinders and automatic conveyor delivery systems with or without magnet separation.

- The granulator includes a self cleaning cyclone filter which eliminates dust emissions and increases service intervals
- The grinding mill consists of 3 rotating blades and 2 fixed blades, each 495mm long
- Dry separation through an air assisted vibrating table.
- On request the SM5000 can be delivered with an integrated pre-grinder and/or conveyor deliver belt system with magnet separation to remove ferrous items before granulating.

Technical Data

Production (input): 250-350 Kg/h *

Installed power: 28 kW

Electric tension: 400V (tri-phase), 50Hz
(changeable on request)

Dimensions: 4020 x 1660 x 2890 mm

Weight: 4050 Kg

* The production output can vary according to the grate used and the cables to be shredded.
