## Bare Tanks

Tank only with no openings, hatches, rails, or other attachments. These tanks are furnished to customers who have the resources to complete the unit by adding the attachments that they need. LMT can furnish items for you to attach to your tank at additional cost, including but not limited to those shown in the list below. Please call for more information and pricing.

## Slide-In Units

Looking for a fully-configured Slide-In unit like this? [Click here to see sizes, pricing, and options for our smaller single and multiple-compartment service units.](#)

## Basic Tanks

*Includes a Bare Tank configuration plus the following:*

- 12" primary shutoff
- full length rails (straight or tapered)
- 4" discharge (nipple only)

1. Nominal dimensions and capacities. Actual capacity varies depending on the maximum level of fill, tank mounting angle, etc.
2. Baffle count, position, and configuration will be modified to design requirements.
3. All prices are subject to change without notice.

#### General Tank Construction Information

All lengths are can length, excluding flanged and dished ends. All tanks over 70" diameter have 2 braces of 2"x 3" solid steel to prevent collapse of tank. For an additional charge, we offer basic primer, standard bright white or custom colors of your choice. Tanks are manufactured with 1/4" mild steel and are welded with submerged arc process for the best strength and appearance. **Stainless Steel** and **Galvanizing** are available at extra cost.
