

## Cover Cloth

FH Bonn stocks a wide variety of cover cloth for every need.

- **BON-KNIT** This fabric has a bi-directional construction to hold garments in place and still permits fast movement on and off the press.
- **BON-SPUN** This nylon fabric gives the non-slip finish needed on bosom, collar and cuff and flatbed presses.
- **BON-TWILL** This nylon combination fabric is the ultimate for flatbed presses. It has the long life of spun and the speed for high production. This fabric is ideal for a garment manufacturer on presses that do a large amount of pants.
- **HI-SPUN** This fabric is made to give you high heat resistance. Ideal for use in industrial plants, ironing board covers and needed on electric presses because of high temperatures.
- **COTTON DUK** This fabric is made of 100% cotton and gives an excellent finish to garments.
