Hako-Hamster 650/800

Vacuum sweeper machines for the dust-free cleaning of small and medium-sized areas

Hako-Hamster 650/800

*Top Hako quality for thorough cleaning results
without gnawing at your budget*

When dealing with the dust-free cleaning of small and medium-sized areas, the Hako-Hamster simply cannot be ignored. It works according to the overhead throwing principle which allows the hopper to be filled completely and to the top. This provides long periods of uninterrupted work and a constant, first class sweeping result. For continuous and high work quality, the filter can be comfortably shaken clean during use. To clean it after completing work, it can be accessed from the clean side easily and quickly. The robust, steel frame construction in heavy-duty quality makes the Hako-Hamster a really professional device which can clean surfaces efficiently for a number of years!

1) Take-it-Easy hopper system

for simple emptying in just one operation

3) Petrol engine

in an economic, quiet industrial version for outdoor use

5) Optional carpet kit

converts the Hako-Hamster to a thorough, gentle carpet cleaner

2) Maintenance-free battery drive

with onboard charger, can be charged at any power socket

4) Close to edge cleaning

and large overlapping of the side brush when cornering

Take-it-Easy – the comfortable hopper system

The swivelling handlebar simplifies opening the hopper, its easy removal and throwing in large debris. In the Hako-Hamster 800, there are two dirt hoppers (2 x 25 l). This means the weight can be better distributed, the hoppers are easier to empty.
