

ENGINEERING CORPORATION

*Your Single Source!*

**Crown Engineering Corporation...the Manufacturer!**

Crown Engineering Corporation is one of the largest manufacturers of electrodes, flame rods, and probes for ignition related applications in regard to oil and gas fired equipment. We manufacture many of the electrodes for today's waste oil burners. Our ignition electrodes can be found in **Beckett AFII** burners, **Wayne Blue Angel** oil burners, in **Carlin's Elite** oil burners, in **Midco** power gas burners, in **Wayne** power gas burners, in **Fulton** boilers, and in **Kewanee** boilers. We have designed and supplied ignition products for grain drying equipment. Our products can even be found in hot water heaters, in pressure washers, and in diesel truck heaters, of all places!

Crown Engineering Corporation is a name you can trust and a quality you can bank on! We have over 50 years of experience in electrode design and manufacturing. We look forward to serving all your ignition requirements!
