

Low Floor Trolley

Cable Car Classics, Inc. proudly introduces its new Low Floor Transit Trolley.

A unique collaboration with Gillig Corporation combines advantages of beautiful vintage-style trolleys, and reliable transit-duty low floor buses.

Customer experience has proven that trolleys greatly increase ridership. Now, this distinctive styling is available to those requiring attractive theme vehicles plus 12-year FTA Altoona tested durability, and full transit features such as low floor, parts interchangeability with existing transit bus fleet, and unsurpassed customer service.

This model continues the tradition of handcrafted elegance, innovative design, and authentic features; right down to its solid cast brass genuine cable car bell, cupola roof, solid American White Oak seats, and maintenance-free trim.
