

Part Number: OSVA TOOL

Description: OSVA Tool

Packaging: Poly-bagged & tagged

Includes:

1 - OSVA Tool with instructions.
 This handy tool makes fuel pump priming operations look easy. Inexpensive yet effective. Another reason to stock and install Webster OSV valves. Our P/N's: OSVA50 & OSVA38!

Part Number: SW1

Description: Silicone Tape

Packaging: Poly-bagged & tagged

Includes:

1 - roll 1" W x 12 Yard x .020 thick Silicone tape.
 This product has thousands of uses. It has 300% elongation stretch capacity. It fuses to itself to form an inseparable bond after 24 hours at room temperature and is water resistant. A great low cost seal in electrical insulation, splicing, and wire wrapping applications. 500° F continuous temperature rating.

Part Number: PTK-9183

Description: Pump test kit

Packaging: Sturdy plastic case

Includes:

- 1 - Manifold
- 1 - Vacuum gauge
- 1 - Pressure gauge
- 1 - 1/8" NPT X 1/2" hex adapter
- 1 - 1/4" NPT X 1/2" hex adapter
- 1 - 6" Clear flexible hose w/fittings
- 1 - Instruction sheet

Our pump test kit performs a variety of tests. Benefits include the ability to trouble shoot pump failure, valve failure, and vacuum leaks all in one convenient kit.

Test Applications

- Operating Pressure Test
- Cut-Off Test
- Vacuum Test - Lift Application
- Vacuum Test - Fuel Unit

Part Number: WP-1

Description: "W" Gauge glass cutter

Packaging: Poly-bagged & tagged

Includes:

1 - Gauge glass cutter
 This "W" shaped gauge glass cutter offers good leverage in that the mechanic can really lean into the score with their body weight making for deep cuts and easy tap & snap secondary process.

AQUASTAT IMMERSION WELLS

Replacement Wells for Honeywell and White Rodgers. Sturdy brass and copper construction for long service life.
