

Locker Model TL4 and TL4wk from Perkins Manufacturing Company.

- Hydraulically locks trunnion bar into tailgate
- Improves worker safety
- Workers can lock both sides from one control, increasing productivity
- Locking ears can help pull misaligned containers into the locked position, eliminating the need to adjust the truck position
- Can be installed on virtually any rear-loader and works with all trunnion-bar rear-load containers, no need to modify your containers!
- 1 year limited warranty
