# The Power and Versatility of VISTA

# Expect More

With solid features and robust system capacities, you'll find VISTA Plus panels to be an ideal choice for all of your installations. And with the advantage of VISTA Plus' unique and innovative end-user features, you'll deliver more value to your customers on each and every sale.

## More Incredible End-User Features

### Graphic Keypads
The intuitive graphic touchscreen display has icons and menu driven prompts that guide the user through every step of system operation.

6270

8132

### Voice Keypads
New Honeywell keypads actually talk! Your customers hear the system status in plain English with precise zone descriptions.

6160V

6150V

### Single-Button Operation
Arm the system, turn lights on and off, send a page, or display time with the press of one button at the keypad.

### Message Center
Family members can record and retrieve voice messages right at the keypad.

### Enhanced X-10® Control
Turn lights on/off on a schedule or randomly to create a "lived-in" look. You can also strobe lights during and after an alarm.
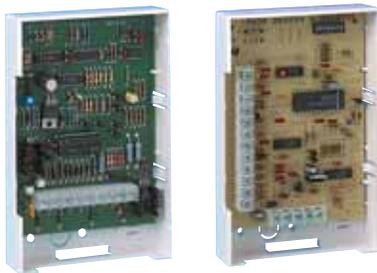

Your customers expect more from their security system, so should you.

## More Fantastic Installation Advantages

### Higher System Capacity
Expand up to 48 protection zones using hardwire or wireless expansion.

Expansion Modules

### Wireless Keys
Add up to four wireless keys without using up any protection zones.

5804-2    5804        5804BD    5804BDV

### Battery Saver
Unique load shed feature saves batteries during extended power outages; reduces service calls.

### Internet Protocol Support
Uploading/downloading panel programming information over the Internet instead of using telephone lines reduces installation time.

### Dynamic Zone Type (DZT)
Customize each and every zone attribute and address special protection requirements like pool areas and gun or liquor cabinets.

### Event Log
Review up to 100 system events identified with a time/date stamp, right at the keypad.

```
001 E305 Z000 P0
12:00AM 01/01/00
```

### False Alarm Reduction
Incorporates the latest false alarm reduction features, including Exit Delay Restart, Auto Stay, Cross Zoning and Cancel Verification.
