ApolloXpress (cont'd)

33-PR/33LF-PR SERIES

The APOLLOXPRESS™ Model 120T-PR (33 Series) 200 CWP Bronze Globe valve with press connections is a proven combination that provides economical installation and reliable service. The valves are cast, machined, assembled, and tested in South Carolina with proven ASTM quality material. The Apollo Globe valve can reliably be installed in most plumbing and heating systems (or building service piping). Lead free option available.

61Y-PR/61YLF-PR SERIES

The APOLLOXPRESS™ Model 163T-PR (61Y Series) 200 CWP Bronze Swing Check valve with press connectors is a proven combination that provides economical installation and reliable service. These valves are cast, machined, assembled, and tested in South Carolina using proven ASTM quality materials. Lead free option available.

61-PR/61LF-PR SERIES

The APOLLOXPRESS™ Model CVB-PR (61 Series) BALL-CONE® In-Line Check valves with Press connections offer reliable protection against reverse flow in a variety of liquid applications including hot and chilled water / HVAC applications using proven ASTM quality materials. May be installed in both horizontal and vertical flow with upward flow. Lead free option available.

36C-PR/36CLF-PR SERIES

The APOLLOXPRESS™ Model PRC-PR (36C Series) Pressure Reducing Valves with Press connections are easily installed to protect residential and commercial water distribution systems by automatically controlling excessive pressure. The dielectric thermoplastic cage provides maximum corrosion resistance. Designed for easy in-line servicing with bottom cleanout and service access. Lead free option available.

36E-PR/36ELF-PR SERIES

The APOLLOXPRESS™ Model PRE-PR (36E Series) Pressure Reducing Valve with Press connections is easily installed to protect residential and commercial water distribution systems by automatically reducing excessive supply pressures. The dezincification resistant bronze body, stainless steel adjusting screw and dielectric polymer cage provide maximum corrosion resistance. Designed for easy in-line servicing with simple cartridge removal. Lead free option available.

36-PR/36LF-PR SERIES

The APOLLOXPRESS™ Model PR-PR (36 Series) Pressure Reducing Valves with Press end connections are designed to protect residential and commercial water distribution systems by controlling excessive pressures. The valves are built for long reliable service with proven ASTM grade materials including a bronze body and cover and integral stainless steel strainer. Lead free option available.

59-PR/59LF-PR SERIES

The APOLLOXPRESS™ Model YB-PR (59 Series) Bronze Wye Strainers with quick Press connections are designed to protect domestic water systems and process equipment from unwanted foreign particles with minimal pressure loss. The valves are built for long reliable service with proven ASTM grade materials and stainless steel strainer. Features Leak Before Press™ technology and 250 psig maximum working pressure. Lead free option available.

RP4A-PR/RPLF4A-PR SERIES

The ApolloXpress™ Model RP4A series Reduced Pressure Backflow Preventers with Press end connections provide maximum protection against back-siphonage or backpressure from substances that are hazardous to the potable water supply. The top accessed modular check valve cartridges provide captured springs, replaceable seats and reversible silicone seat discs. This Made in America / 5 year factory warranty assembly features ApolloXpress™ ball valves with stainless steel handles and trim as standard and Leak Before Press™ technology.
