

Control4® Intercom License

Control4® Intercom License C4-Intercom-E

The Control4® Intercom License enables the optional video and audio intercom functionality available on intercom-capable Control4 In-Wall Touch Screens, Portable Touch Screens and Door Stations so you can hold a conversation with someone in another room or at the front door, send a message to all rooms in the house, or even monitor the baby's room.

- High-quality two-way sound enables clear, convenient conversations throughout the home between audio-intercom capable devices.
- High-fidelity video intercom communications between video-intercom capable devices.
- One license required per project to activate unlimited intercom-capable devices.
- “Do not disturb” and auto-answer modes are available to provide specific control over the use of the intercom feature.

| Device | Audio Intercom Capable | Video Intercom Capable |
