

CLEANOUTS

FIG. 4710, 4715 ROUND FACE-OF-WALL ACCESS COVER AND SCREW

FUNCTION: Used to conceal cleanout closures in walls. The round access cover is mounted on the surface of the finished wall and is directly secured by the screw to a tapping which must be provided in the cleanout plug. Shallow plates are preferred for all installations except where the cleanout plug protrudes beyond the finished wall surface, in which case the deep type cover must be used.

OPTION	\$:	ADD
-LS	6" Long Center Screw	28.00
-LSU	6" Long Vandal Proof Center Screw	85.00
-U	Vandal Proof Screw (1/4-20 X 2 1/2")	58.00

FIG. 4720, 4725 WALL ACCESS SECURED COVER WITH ROUND FRAME

FUNCTION: Used to cover cleanout plugs, valves, controls or equipment concealed in walls. The round design eliminates necessity for lining up with adjacent floors, ceilings, moldings, etc. The anchoring lugs provide easy means for securing the frame to the wall construction. The face-of-wall cover is for tile, masonry, or dry wall construction and is usually installed on an opening provided in the finished wall. The flush-with-wall cover is for plaster or wet wall construction and is installed during the wall construction.
