## FIG. 8560, 8560E SERIES LARGE CAPACITY STEEL OIL INTERCEPTORS

**FUNCTION:** Large capacity oil interceptors are used in large garages, service areas and industrial plants where waste laden with oil and sediment must be intercepted. The intercepted oils are drawn off by gravity to a storage tank or container. Any sediment which is included in the discharge is collected in a large sediment bucket and periodically removed. Interceptors should not be located directly in traffic areas. If required, specify extra heavy duty traffic cover.
