MVS-12

MULTI-VIEWER/SWITCHER

Multi-Viewer with Simple Matrix Switcher
for Convenient Video Monitoring

Easily monitor and distribute input sources. View all sources on a single HD display.

MULTI-VIEWER/SWITCHER MVS-12

INTUITIVE OPERATION

Quick setup and operation with a mouse. Rearrange screen structure with simple drag and drop motion. Select video source with a click of the mouse.

●Setup MENU also supports mouse operation.

MATRIX SWITCHER

Using the built-in Matrix Switcher function, 12 video sources are assignable to 4 different outputs. Use as a simple switcher.

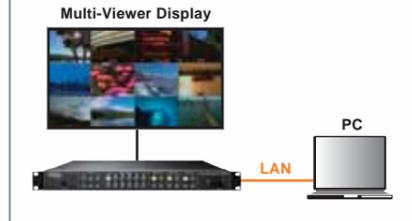

MULTI-VIEW

There are four layout patterns to choose from. Aspect ratios, background color and source names can be selected from the MENU.

MEMORY & CONTROL

Four display setups can be saved and recalled from the 4 front panel memory buttons. In addition, the MVS-12 can be controlled from a PC via LAN or RS-232C.

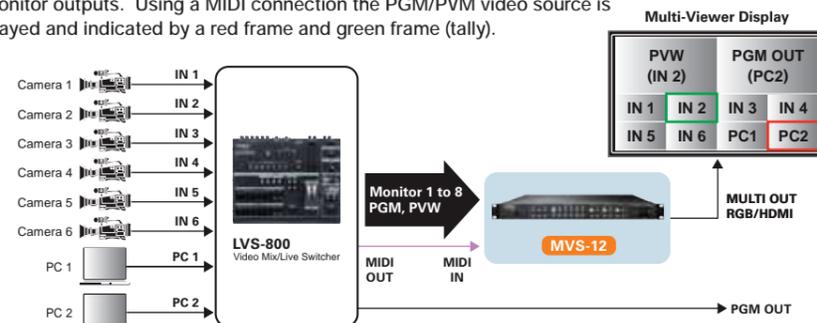

MULTI-SOLUTIONS

Multi-viewer and Matrix switcher function enables system expansion.

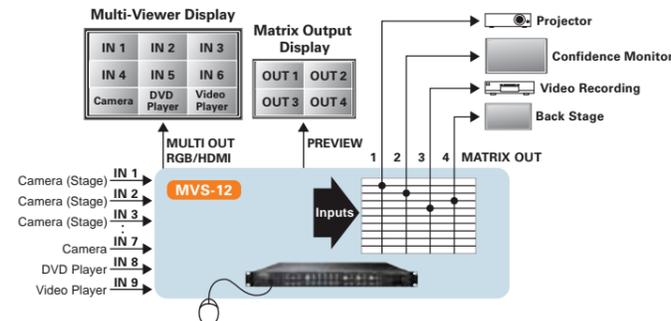

Monitoring for Switcher

The MVS-12 is a perfect companion for the LVS-800 allowing you to preview all monitor outputs. Using a MIDI connection the PGM/PVM video source is displayed and indicated by a red frame and green frame (tally).

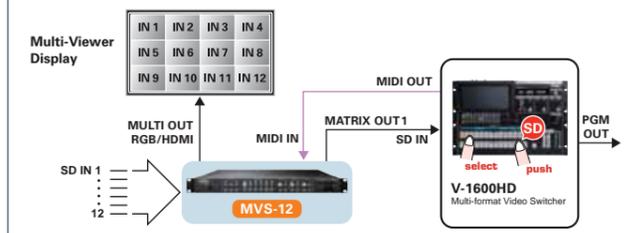

Monitoring for Video Installation

Video sources can be distributed to up to four different locations.

Expansion of SD Inputs

The Matrix Switcher function enables the V-1600HD mixer to access additional SD inputs. By connecting a MIDI cable and using the V-LINK function, the V-1600HD can directly select any video source from the MVS-12.

Please note that the MVS-12 does not function as a multi-viewer for the V-1600HD. The inputs and formats of the MVS-12 and the V-1600HD are not directly compatible. This example is an illustration of standard definition input expansion for the V-1600HD only.

Specifications

| | | | | |
|------------------------------------|---|---|---|-------------------------------------|
| Video Format | Composite: NTSC or PAL | Connectors | Output Connectors | HDMI (for MULTI-OUT, MENU) x 1 jack |
| | HDMI, PC-RGB: 1920 x 1080 (60 / 50 Hz), 1680 x 1050 (60 / 75 Hz), 1600 x 900 (60 / 75 Hz), 1440 x 900 (60 / 75 Hz), 1280 x 1024 (60 / 75 Hz), 1280 x 720 (60 / 50 Hz), 1024 x 768 (60 / 75 Hz) (Progressive Scan) | | PC-RGB (for MULTI-OUT, MENU): D-Sub 15pin type x 1 jack | |
| Sampling Rate | 4:2:2 (Y:B-Y:R-Y), 8-bit, 13.5 MHz (ITU-R BT.601) | Other Connectors | Ethernet 10 / 100Base-Tx RJ45 type x 1 jack | |
| Input / Output Level and Impedance | Composite: 1.0 Vp-p, 75 ohms PC-RGB: 0.7 Vp-p, 75 ohms (H, V : 5V TTL) | | RS-232C DB-9 type x 1 jack | |
| Connectors | Video Input | Composite: BNC type x 12 jacks | MIDI IN 5-pin DIN type x 1 jack | |
| | Output Connectors | Composite (for MATRIX OUT): BNC type x 4 jacks Composite (for MATRIX OUT Preview): BNC type x 1 jack | MIDI OUT / THRU 5-pin DIN type x 1 jack Mouse PS/2 type *Not bundled. | |
| | | Power Supply | AC Adaptor (Accessory) | |
| | | Current Draw | 2 A | |
| | | Dimensions | 481 (430 without rack mount bracket) (W) x 320 (D) x 44 (H) mm, 19 (16-15/16 without rack mount bracket) (W) x 12-5/8 (D) x 1-3/4 (H) inches | |
| | | Weight | 3.0 kg, 6 lbs 10 oz (without AC Adaptor) | |

[MONITOR] XGA (1024x768 pixels) or greater, HDMI or Analog RGB input is required.

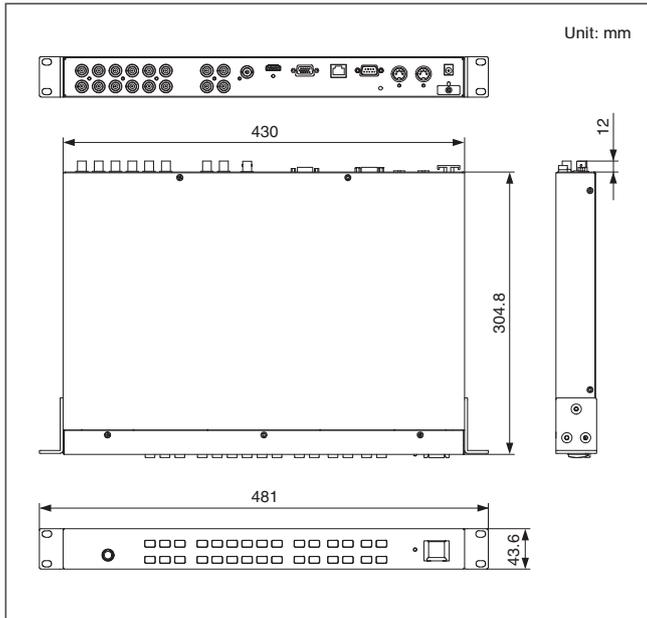

[HDMI OUTPUT Connection] Audio is not supported. HDMI version is 1.2. Supports EDID when the setup is AUTO.

[RGB OUTPUT Connection] Manual pixel rate setup is needed.

[Aspect Ratio] In MULTI-OUT, display aspect and each input aspects can be adjusted individually. MATRIX OUTPUT has no aspect adjustment function.

[Switching] An mixed image before and after switching may appear on MATRIX Output at switching.

Dimensions

Video Mixers/Switchers

Innovative 8-channel Video Mixer with DSK

- 8 video inputs including 2 separate PC/RGB inputs
- Simple panel layout
- Downstream Keyer for seamless mixing under title/graphics

LVS-800

Video Mix/Live Switcher **V-LINK**

RGB COMPOSITE S-VIDEO

Powerful Eight Input Video Mixer

- 8 video inputs including built-in scan converter for RGB input
- Various video effects and transitions
- DV quality full digital processing

V-8

8-Channel Video Mixer **V-LINK**

RGB COMPOSITE S-VIDEO

An All-in-One Multi-Format Live Video Switcher

- Built-in monitor, scalars and Multi-format inputs and outputs
- DSK, Key Composition and PinP are controlled using simple operation.
- Various video equipments can be connected.

V-1600HD

Multi-Format Video Switcher **V-LINK**

HD-SDI SD-SDI DVI-D HDMI RGB
COMPONENT COMPOSITE S-VIDEO STILL IMAGE

Roland Systems Group

Roland Systems Group, a member of the worldwide group of Roland companies, is dedicated to the support of audio and video professionals demanding excellence in both performance and system design. Through the development and support of video and audio products, we endeavor to improve workflow and maximize creative possibilities.

Ensuring high quality while protecting the environment: Roland is ISO9001 and ISO14001 certified

At Roland, several group companies have obtained ISO9001 certification. In addition, in January 1999, Roland also received ISO14001 international environmental management system certification. We're actively seeking ways to maintain harmony with the environment. (ISO=International Standardization Organization: an organization for the promotion of standardization of international units and terms. They provide different categories of certification: ISO9001 Series certification is a product quality certification for products that undergo a certain level of quality control from the design stage to the after service stage; ISO14001 Series certification is for environment-related standards. Each member of the Roland Group is striving to obtain certification.)
