SANUS Java Series Furniture

Versatile design supports any combination of AV gear

The Java Series JFV60 can be placed on the floor or mounted on the wall, making it one of the most versatile AV cabinets on the market. This flexible piece includes a steel back plate for mounting the unit to wall studs and easily attachable feet for placing it on the floor. The sturdy JFV60 supports up to 350 lbs of AV equipment when the unit is on the floor, and offers rear cable management channels to conceal and route cabling for a clean and flawless appearance.

JFV60-CH1

Supports up to 200 lbs when mounted on wall and up to 350 lbs when placed on floor

Sliding glass doors give AV gear an enclosed look without blocking infrared remote control signals

Attachable feet allow unit to be placed on floor, providing ultimate flexibility

Easily removed back panels and rear cable management channels keep cables hidden and organized for a flawless appearance
