

3D STARTER PACK

Model: 3DC-1000

BRING 3D DLP® CINEMA HOME

3D is a large screen, immersive experience, and Mitsubishi 3D DLP® Home Cinema TVs bring theater-like 3D entertainment, home. Mitsubishi's new 3D Starter Pack enables 3D DLP® Home Cinema TV owners to enjoy 3D movies, 3D games and 3D Sports at home. The 3D Starter Pack includes two pair of active shutter 3D eyewear, a matching emitter, Mitsubishi's new 3D Adapter to convert and make compatible, various 3D signal types with all legacy and current Mitsubishi 3D-ready TVs, and a Disney® 3D Showcase Blu-ray™ disc for instant 3D gratification.

3D STARTER PACK INCLUDES

- 2 Pairs of Active Shutter 3D Glasses
- Emitter for 3D Glasses
- Disney® Blu-ray™ 3D Showcase Disc
- 3D Signal Adapter
- 3D Signal Adapter Remote Control
- One HDMI™ Cable

3D ADAPTER BACK PANEL

*In order to display 3D images, Mitsubishi 3D Ready DLP Home Cinema TVs require the use of a 3D source device coupled with the Mitsubishi 3D adapter or other source devices that support checkerboard display formats for display of 3D games, 3D broadcasts from terrestrial/cable/satellite and 3D Blu-Ray disc content. In all cases an emitter and matching 3D active shutter glasses or DLP Link active shutter glasses are required in order to view 3D content. Mitsubishi 3D TVs (738 and 838 series) currently support the side-by-side 3D signal format. For support of other 3D formats, such as top-bottom and frame packing (3D Blu-Ray standard), Mitsubishi 3D TVs will require the use of a 3D source device that outputs the 3D checkerboard format or a 3D source device coupled with the Mitsubishi 3D adapter. In all cases an emitter and matching 3D active shutter glasses or DLP Link active shutter glasses are required in order to view 3D content.

Features, specifications and dimensions are subject to change without notice. Physical appearance of television and matching base may vary slightly from images shown on this document.
