

WPR-EN4200 - Wireless 900 MHz Serial Receiver

The **WPR-EN4200 Wireless 900MHz Serial Receiver** is designed to monitor wireless 900MHz push buttons and transmitters and convert the wireless data to serial data. The serial data can be processed by a main wireless paging controller, such as the **VS4800** or **VNS5100**, in order to generate automated text, audio or visual alerts to pagers, alphanumeric displays, speakers, strobe lights, e-mail and telephone subscribers.

***Note:** Compatible with WPT-ENxxx series only.

WPRP-EN5040

WPT-EN1223

VS4800

VNS5100

Key Features:

- **Monitors Wireless 900MHz Push Buttons and Transmitters**

Options, Accessories and Complementary Products:

Part Number	Description
