

## Pendant to LED Display System

### Key Features:

- **Send Pre-Programmed Messages to LED Displays**
- **Easy Installation**
- **Use a 4-Button Pendant to Send 4 Different Messages**
- **Supports Unlimited LED Displays**
- **Low-Cost System**

**The Visiplex Pendant to LED Display System** is a cost-efficient solution to install an LED signboard notification system at any facility.

When activated, the pendant will send a pre-programmed message to the nearby LED displays. The system supports an unlimited amount of LED Displays.

If a 4-button pendant is used, each button can send a different alphanumeric message to the LED displays.
