

Pendant to Pager System

Key Features:

- Sends Pre-Programmed Messages to Pagers
- No Installation Required
- Use a 4-Button Pendant to Send 4 Messages
- Supports Unlimited Pagers
- Low-Cost System

The **Visiplex Pendant to Pager System** is a cost-efficient solution to install a paging notification system at any facility.

When activated, the pendant will send a pre-programmed message to the nearby pagers. The system supports an unlimited amount of pagers.

If a 4-button pendant is used, each button can send a different alphanumeric message to the pagers.
