

CINEMA 500

Home Theater Speaker System

The new JBL® Cinema 500 home theater speaker system creates a big home theater sound without big speakers. Matched two-way dual-midrange satellite and center speakers immerse you right in the middle of a movie's action while the 150-watt powered subwoofer supplies the impact and excitement. And the exclusive JBL weave design creates a unique, organic look.

FEATURES

ADVANTAGES

BENEFITS

Exclusive JBL Weave Design	Unique design element	<ul style="list-style-type: none"> • Dynamic and modern appearance • “Un-boxes” the speakers
Designed to Work as a Complete System	Contains everything you need to create a complete 5.1-channel surround sound experience	<ul style="list-style-type: none"> • Everything is designed to work together for the best performance • Removes the guesswork from the speaker purchase – everything is pre-matched
Voice-Matched Satellite and Center Speakers	Moving sounds remain consistent from speaker to speaker	<ul style="list-style-type: none"> • Helps to create a more immersive, enveloping surround sound field • Sound effects are more believable
