

COMPLETE CONTROL MOBILE

FOR URC SYSTEMS WITH MRX-1 NETWORK BASE STATIONS

Transform your iDevices into your favorite controller

Complete Control Mobile, the all new MX-iOS App, enables control of your entertainment directly over the local area network (LAN) using an iPad®, iPhone® or iPod® touch.

Aided by dazzling, intuitive inter-

faces, you can do everything from setting a DVR and navigating your favorite channels to controlling music, volume, URC lighting and countless other devices. With the MX-iOS App from URC you gain all that's needed to use your own iPads and iPhones to securely control things most important to you from anywhere within your home or commercial building.

DOWNLOAD THE FREE APP!

Harnessing convenience and custom graphics

The Complete Control Mobile App works in conjunction with URC's MRX-1 and your iDevices. You can download the app for free from the Apple iTunes® store. Your custom integration professional will properly pair your iDevices with the MRX-1 in your system.

With a customizable graphical interface, your installer can also design the graphic portion of the screen to suit you with the buttons and functions you want most.

And, for one setup fee, unlimited iOS devices can be activated on your system.

Easy, powerful and as modern as tomorrow

While there are places in your home that it's ideal to have a URC remote or URC control device that will remain in a room, we recognize there are times when you want to use your iDevice. We offer the best of all worlds by providing the MRX-1. At any time in the future, you can download the Complete Control Mobile iOS App. Then, for a nominal one-time setup fee, your integration specialist will establish communication between your own iDevices and the controller. It's a solution that's easy, powerful, and as modern as tomorrow!

COMPLETE CONTROL MOBILE

Tech Talk

- Compatible with Apple's iPad, iPhone and iPod touch
- Easy operation and installation – no new programming to learn!
- Delivers fast, one-way control of a multitude of A/V components
- Button layout provides volume, mute, channel, numeric keypad, navigation information, transport and custom keys
- Fully customizable graphics in dedicated area of the interface with a graphic resolution of up to 1536 x 1124 (for iPad) and 600 x 640 (for iPhone/iPod)
- Provides both portrait and landscape functionality
- The app may be downloaded from Apple's iTunes store and installed on iDevices
- Requires a URC MRX-1 Network Base Station per system (multiple MRX-1 units may be used in a system)
- The professional installer matches the MRX-1 to client iDevices using a Setup Card purchased from URC. One Setup Card is valid in one (and only one) system by using a unique Setup Code.
- Unlimited iDevices for one system with one Setup Card / Code

Portrait or landscape, iPad, iPhone, iPod touch – now use them like you would your remote control or in-wall touch screens.

System Integration with URC Products

- Complete Control Mobile works in conjunction with an MRX-1 for one-way control of AV components within a home or office building
- Compatible with URC's Complete Control System and MX-Series Remote Controls
- With an optional RFTX-1, this app can provide one-way control of URC Lighting by Lutron®
