

TELEPAD™

The TelePad™ is a unique device that allows the Apple™ iPhone™ and iPod Touch™ to be mounted to a stand for easy viewing and hands-free use. The TelePad's cradle snugly fits around the iPhone while spring loaded retainer clips allow the user to quickly release the phone. A 3-way adjustable clamp allows the unit to be attached to a wide range of stands from the thinnest of microphone tripods to heavy duty drum stands.

Two TelePads are available: The TelePad-3™ fits 2G, 3G and 3GS iPhones and iPod™ Touch™. The TelePad-4™ fits the iPhone 4. Made from high impact plastics, the TelePad combines durability with functionality and will surely deliver years of on-stage enjoyment.

Features:

- Three position clamp adjusts to fit pipes from ½" to 1" (14mm -25mm)
- Ball joint allows the phone to be rotated for portrait or landscape viewing at any angle
- Custom molded cradle fits snugly around iPhone to hold it in place

Benefits:

- Holds an iPhone securely on a stand for easy viewing
- Cradle releases from clamp quickly for safe removal of iPhone

Cool Stuff:

- Easy way to utilize your iPhone apps both in the studio and on stage
- Use an iPhone live as a teleprompter, tuner, metronome, etc
