

Hear the truth™

JBL® MICRO II

Ultra-portable, 3-watt speaker with a Li-ion rechargeable battery and built-in bass port

LEGENDARY SOUND SINCE 1946

**SMALL WONDER:
SO POWERFUL,
SO PORTABLE.**

Introducing the JBL® Micro II ultra-portable speaker. With its built-in bass port and compact size, the speaker lets you take great JBL bass any place.

The second-generation JBL Micro II is the first ultra-portable speaker that has a Li-ion (lithium-ion) rechargeable battery and a built-in bass port. With a 1-5/8-inch (40mm) driver and an acoustic volume of 100cc, the JBL Micro II delivers legendary JBL sound with exceptional bass – all in a speaker that fits easily in backpacks or clips onto clothing. A built-in audio cable connects to any mobile device or MP3 player, and it can even be daisy-chained with other JBL Micro II speakers for a powerful sonic experience.

Powerful JBL Sound

- Built-in bass port
- 5-hour, Li-ion rechargeable battery
- Portable design
- Smart cable design
- LED indicator
- Daisy-chain capability

KEY FEATURES

JBL® MICRO II

Hear the truth™

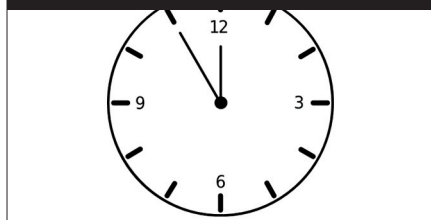

The JBL Micro II is the ultimate portable audio solution for indoor or outdoor playback – with performance, portability and pricing the competition can't touch.

Built-in bass port

JBL® engineers believe you should never have to sacrifice performance for portability. That's why the JBL Micro II has a built-in bass port. It generates powerful bass that's superior to comparable portable products.

5-hour, Li-ion rechargeable battery

The JBL Micro II portable speaker has a built-in Li-ion battery that provides up to five hours of playback time. The battery is easily recharged using a micro USB port, which saves you battery hassles and money.

Portable design

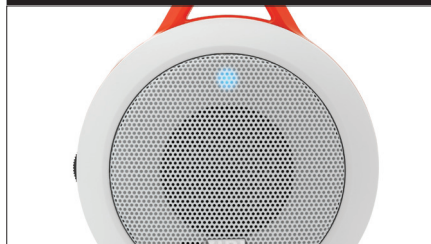

Who says you can't take it with you? The lightweight, compact JBL Micro II fits easily into backpacks or pockets.

Smart cable design

The JBL Micro II portable speaker is always ready to connect and play. And when your source device isn't connected, the built-in 11-13/16-inch (30cm) audio cable stores in the bottom of the speaker case to prevent tangling.

LED indicator

A clearly visible LED lets you know when the built-in Li-ion rechargeable battery is low, so you know when the JBL Micro II needs charging.

Daisy-chain capability

If you can't get enough of a good thing, you can connect the portable speaker to other JBL Micro II speakers, creating an impressive sound environment.

SPECIFICATIONS

JBL® MICRO II

Hear the truth™

Specs that would impress even the toughest critics.
