

ACTIVATIONS SINGLE DROP • DUAL DROP • WORLD DROP • AFTERMARKET CARD READERS • CENTRAL PAY

Available in 30 lb (13.6 kg), 45 lb (20.4 kg) capacities.

STACK TUMBLE DRYERS

Get twice the capacity of a standard dryer in the floor space of a single pocket tumble dryer. Plus, you'll still only need one set of gas, electric and exhaust hook ups, simplifying your installation.

The cabinet design of our stack tumble dryers strikes the perfect balance of heat, airflow and tumble action. This means that no energy is wasted and loads receive the most concentrated drying possible. This equates to some of the fastest dry times in the industry. Plus, our patented oval cylinder perforations solve a common, highly damaging problem, allowing stray screws to pass through without doing large amounts of damage to the dryer's sweep sheets. Adding stack tumble dryers to your coin laundry not only positions your store to get customers out the door faster, but they also offer a wealth of profit potential.

FEATURES

Axial airflow pattern with sealed cylinder rims delivers the fastest and most efficient drying results

Two drying pockets in the space of one unit helps stores increase drying capacity

Large, easy-to-clean lint compartment

Fewer moving parts mean fewer maintenance problems and less wear

High performance heater box increases energy efficiency, reduces drying times and provides a more comfortable operating environment

Single gas, electric and exhaust hookups simplify installation and are less expensive than installing twice the number of single units

TUMBLE DRYER CONTROLS

MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.
