

## STACK DRYERS

Save your floor space and double up on some of the most efficient dryers in the industry.

Get twice the drying capacity in the compact floor space of a single dryer with Speed Queen stack dryers. You'll also benefit from extra capacity for large loads, for the ultimate in space-saving performance, helping you get the maximum amount of work done without endangering your bank account — or your laundry design.

### FEATURES

Extra large capacity for large loads

2.06 sq. ft. (1913.8 sq. cm) door opening is the largest in the industry, providing easy loading and unloading

Efficient dryer heating with 25,000 Btu (gas models) and up to 5,350 Watts (electric models)

Available in 18 lb (8.0 kg) capacity

### STACK DRYER CONTROLS

#### E-MECH

The E-Mech control features a straightforward design that offers users simple temperature selections. Cue lights keep them aware of whether the machine is in use, as well as the current cycle status.
