

#1 in Lint Filtration

for over 25 years

Airwasher, fiberglass wet style
 Continuous cleaning 6,000-40,000 cfm
 Backpressure operated fan control

ALL LINT FILTERS ARE NOT CREATED EQUAL

Fiberglass
&
Stainless

- Large, multiple access doors for ease of inspection.
- Non corrosive materials throughout.
- Outstanding in-house and on-site customer service.
- Factory service available.
- Energenics exclusive 24V controls on Dry Style Filters, safest in the industry, meets all codes.
- Automatic Dry style filters from 3,500-30,000 cfm. Fiberglass or Stainless construction.
- Filter operation and control by measuring backpressure, optimizes dryer performance, minimizes lint by-pass.
- OPL, Air Free. No blowdown filters from 500-7,000 cfm. No Power, No Compressor, No Sweat!

KARTWASHING SYSTEMS FROM COMPLETE AND PRE-PACKAGED COMPONENT SYSTEMS FOR "DO IT YOURSELF" CARD CLEANING ROOMS TO FULL AUTOMATION

- Complete component systems to provide the same optimum cleaning and sanitizing for laundries that want to provide their own "cleaning room". Simple "do it your-self" mounting of spray and drying piping. All components and controls to operate a labor saving professional cleaning operation. Wire, plumb and "go" installation simplicity.
- New housing and door systems, from simple manual doors to automatic operating doors.
- Housing systems designed to mount over a drain, or with built in sumps and drains.
- Fully automatic, magazine loading systems that require no pit. The systems mounts on the floor, no concrete work required.
- Fully conveyORIZED magazine loaded cart washing systems.
- New drying system providing 3 times the airflow to optimize drying.
