

Water King – Water Softeners and Filters

- Complete Systems of Industrial Softeners and Filters
- Coated Carbon Steel Mineral Tanks
- Structural FRP Fiberglass Poly-Glass Mineral Tanks
- Simplex, Twin Alternating, Triplex, and Quad Configurations
- Copper, Stainless Steel, PVC, or Galvanized Face Piping
- Standard 100 PSI or ASME Code-Stamped Mineral Tanks
- High-Quality Resins and Filtering Media
- Custom System Engineering
- Complete In-House CAD Drawings/Specifications
- Complete In-House Engineering Departments
- Design and Build Engineering & Drawing
- Large representative-based support network

Water King Controllers & Valves

- TaskMaster III 316 Stainless Steel Control Valve with ERC Series Fully Electronic Controller
- DM & DMB Series Diaphragm Valves
- Stagers and Tubing Kits
- Programmable Logic Controllers
- Shut-Off and Super Flow Kits
- Flow Meters – Paddle Wheel, Turbine, and Industrial

Reverse Osmosis and Ultraviolet Filtration

- Complete Line of Industrial Reverse Osmosis Systems
- RO Systems from 5000 gal/day to 200k gal/day
- Cleaners for Foulants including Biocides
- Membrane Autopsy Analysis (outsourced)
- Ultraviolet Filtration Ranging from 1.5 to 450 gallons per minute
- UV Purifications for Residential, Commercial, or Large Industrial Applications
