

Larger sizes are now available for the Dual Masking Electrol® to accommodate large venue installations. The Large Dual Masking Electrol® is available in sizes up to 18 feet wide. Featuring Da-Lite's step-back masking system, the masking lays flat against the viewing surface to prevent distracting shadows around the projected image.

This ceiling recessed electric screen allows for a choice between two different aspect ratios. The Large Dual Masking Electrol® features a vertical masking system that starts with either HDTV format and masks to NTSC video format or starts with Cinemascope format and masks to HDTV format. Custom sizes and formats are also available. The Large Dual Masking Electrol® is offered in tensioned and non-tensioned models with Da-Lite's industry leading selection of proprietary front and rear projection screen surfaces.

Large Dual Masking Electrol®

DA-LITE®

ELECTRIC SCREENS

- Ideal for large venue installations when a variety of image formats are projected.
- Available in sizes up to 18 feet wide.
- Custom sizes and formats are available upon request.
- Unique "step-back" masking design eliminates shadows.
- Front projection fabrics are standard with black backing for opacity.
