

# A picture's worth a thousand words.

## Say it in perfect focus.

Da-Lite's JKP Affinity Home Theater Screens have changed the industry with clear resolution and stunning colors. These home theater screens feature revolutionary HD Progressive surfaces, delivering the very best HD digital images in the market. It's a difference you can see and feel with a smooth surface and unmatched image uniformity never before seen in projection screen surfaces.

Through a collaborative partnership with Joe Kane Productions, Da-Lite developed the JKP Affinity Series, guaranteeing a superior customer experience for years to come. It's not only compatible with today's 1080p high definition, but also with the 4K technology of the future.

To bring perfect focus, specify a JKP Affinity Home Theater Screen - only from Da-Lite.
