

Fire Blanket Cabinet

Thomas Products Fiberglass Fire Blanket cabinets are designed to store and protect treated fire-resistant blankets. Thomas Products fiberglass cabinets are manufactured with high quality materials designed to protect fire blankets from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects, and temperature extremes. Thomas Products fiberglass cabinets are manufactured under U.S. Patent No. 4,998,587 and are available in a variety of UV inhibiting colors as well as interiors designed to meet your specifications. The rugged and durable construction of Thomas Products fiberglass cabinets combine to produce a dependable and virtually air tight enclosure that will last much longer than wood, steel, aluminum, or plastic cabinets. Thomas Products fiberglass cabinets can be wall mounted, attached to handrails, bulkheads or designed to be free standing.
