

Safety Equipment & First Aid Cabinets

Thomas Products Fiberglass First Aid cabinets are designed to store and protect a large assortment of first aid and medical supplies. Thomas Products fiberglass cabinets are manufactured with high quality materials designed to protect first aid supplies from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects, and temperature extremes. Thomas Products fiberglass cabinets are manufactured under U.S. Patent No. 4,998,587 and are available in a variety of UV inhibiting colors as well as interiors designed to meet your specifications. The rugged and durable construction of Thomas Products fiberglass cabinets combine to produce a dependable and virtually air tight enclosure that will last much longer than wood, steel, aluminum, or plastic cabinets. Thomas Products fiberglass cabinets can be wall mounted, attached to handrails, bulkheads, or designed to be free standing.
