

Lock Storage Cabinets

Thomas Products Fiberglass Lock Storage Cabinets are custom designed for all-weather, year-round storage and protection of your locks and keys. Manufactured with high quality, corrosion resistant materials designed to protect all inner materials from exposure to harsh UV rays, chemicals, moisture, dust, salt air, insects, and temperature extremes. Modular type construction that enables flexibility and variation in sizing, design, and interior configurations. These lightweight, yet heavy-duty fiberglass lock storage cabinets are easily transportable from site to site with the use of a crane or cherry picker. A lock storage cabinet stand may be included, if desired, for turnaround usage. These lock boxes offer numerous options to meet your requirements and, they will last much longer than wood, steel, aluminum, or plastic lock storage boxes.
