

Key Features of the Inada Sogno Massage Chair

Shiatsu Point Locator

The location of shiatsu points varies by body type. Before each massage, the infrared sensor in the Sogno automatically detects these points, allowing for a more comfortable and effective massage.

Neck and Shoulder Air Massage

This system gently lifts up the neck from both sides to stretch and knead the muscles. Built-in adjustable pads apply shiatsu pressure to the top of the shoulders while air cells provide firm pressure to the back of the shoulders.

Full Arm Massage

Sogno DreamWave Massage Chair provides the industry's first and most effective full arm massage. Experience a gentle kneading massage as 20 air cells work on the upper arms, forearms and fingertips.

Side Press

Massages the pelvis from both sides of the buttocks, relieving the thighs and buttocks from fatigue and muscle soreness.

Adjusts to Body Size

The Sogno DreamWave Massage Chair easily accommodates various heights and body types. The chair adjusts to a large range of heights, from 5' to 6'5".

Calves and Feet Shiatsu

Put your feet up in the fully adjustable, automated foot bed while air cells provide firm shiatsu pressure against the backs and sides of both calves as well as the soles, insteps and heels.

Massage Coverage

With 13 motors, extended roller reach from the base of the skull to the upper glutes, and over 101 active air massage cells, the Sogno DreamWave Massage Chair offers more massage coverage than any other massage chair in the world.

3-D Massage

The Sogno DreamWave Massage Chair is extremely flexible in providing different massage intensities and can easily adjust to personal preferences. The 3-D roller mechanism brings the rollers out for a deeper massage or withdraws the rollers for a more gentle massage. Rollers rotate just like real human wrists and mimic the fine movements of a massage professional.

Our Massage Chair Specialists are available to answer your questions about the Sogno DreamWave Massage Chair at 888.769.0555, Monday–Saturday 8:00 AM – 6:00 PM central time. Or contact us by email at info@InadaUSA.com.
