ValueWall™...the industry's full-featured price leader that offers great performance benefits. 4 mil vinyl over 5/8" gypsum with an expanded polystyrene core. STC:30-35. R Value – 9. Meets Class A building code requirements.

Optional RuggedWall™...utilizes heavy duty steel sheets laminated to the wall surface for added protection and durability. Contact dealer for details.

Optional CleanWall™...ideal for specialty enclosures where a cleanable, durable steel surface and thermal insulation are important. Contact dealer for details.

## Accessories

### Air Conditioner Kits:

HA/C2 A/C kit for 200 SF is 8,000 BTU A/C with heat pump. Wt. 90 (lbs.) Price Ea. \$1,281.25  
 HA/C4 A/C kit for 400 SF is 12,000 BTU A/C with heat pump. Wt. 113 (lbs.) Price Ea. \$1,500.00  
 Includes panel cutout and modular pre-wired outlet.

### Door Glass:

If you would like a door with a safety glass window, please order when ordering your ValueWall™ System. Door Glass is size 24" x 30" x 3/16" thick tempered safety glass.  
 HDL-1 Door Glass Wt. 30 (lbs.) Price Ea. \$112.50

## Custom Solutions

Whatever your project or scope, National Partitions modular building systems include endless applications to solve your space problems quickly and for much less than conventional construction methods. Contact dealer for pricing if building requires seismic consideration.

### Guard Buildings...

Designed for demanding weather conditions. These structures are ideal as fixed offices. Forkliftable, prewired and ready for occupancy.

### Vision Towers...

Clear wide spans allow open space below for work areas. Can be designed to meet seismic zone requirements.

### Two Story...

Allows for maximum use of limited space. Excellent for supervisory offices with a clear view of work areas.
