**Superior™  
Single Ear  
Headset**

The comfort-sling headband and the deep, over-ear earcup make this headset ideal for backstage, on-field or classroom use where it is important to listen to content but also to be aware of what is happening around you.

**SA370** \$49.50

**Multimedia Stereo Headset**

This lightweight and easy-to-wear multimedia headset is well suited to all types of testing and language learning situations in labs, libraries, and classrooms. When students are required to respond to instructions verbally or provide correct pronunciation, the in-line volume control and mic windscreen reduce unintentional sound during the recordings. This headset is ideal for online student assessments.

Choose between dual 3.5mm or USB plug

- 3064USB-10** Ten-pack of 3064-USB w/storage case \$483
- 3064AV-10L** Ten-pack of 3064AV without case \$175.50

**Lightweight Stereo Headset**

This stereo headset is so light and comfy, students might forget they even have it on! Ideal for podcasting and distance learning, it can also be used for language learning applications, computer labs, gaming and with presentation software. When used for only listening, the flexible boom mic can be folded up alongside the adjustable headband so it's out of the way (comes without volume control).

- 3065AV-10L** Ten-pack of 3065AV without case \$153
- 3065AVT-10L** Ten-pack of 3065AVT \$153
- 3065AV** with dual 3.5mm plugs \$17
- 3065AVT** with single 3.5mm To Go™ plug \$17
