SPR936 - 63.5"w x 23.5"d x 4.5"h - 80 lbs.

## COLOR / FINISH

Glass tables feature tabletops made using frosted glass that has been tempered for safety and has a protective coating to prevent fingerprints. Clear glass tabletops are also available for an additional upcharge.

All metal components of Plus tables, including table bases, are always finished in Aluminum.

## CONSTRUCTION SPECIFICATIONS

### GLASS TABLETOPS

Frosted glass tops are .5" (1.27cm) thick and have a protective coating to help prevent fingerprints. For safety, glass is tempered, edges are flat polished, and corners have a slight radius. Holes are countersunk so that brushed aluminum hardware is flush with the glass surface. The frame is held to the glass with decorative countersunk screws that lie flush to the glass surface. A clear bushing prevents the frame from scratching the glass surface. Clear glass tops are available upon request, for an additional upcharge.

### BASE

Metal table base is constructed from cast aluminum and bead blasted with a clear lacquered finish.

## MADE IN THE USA

Plus tables are made at Bretford's Chicago area manufacturing facility.
