

BARONET

NO ELECTRICIAN REQUIRED TO INSTALL THIS COMPACT SCREEN

FEATURES

- The Baronet offers an excellent, lower-cost alternative to hardwired motorized screens.
- No electrician is required with the Baronet. Just install the motorized screen and plug it in. It's that simple. Its 10' power cord plugs into the nearest wall outlet.
- Controlled by a 3-position, in-line operating switch.
- Attractive case fits in most spaces. Case measures only 3¼" high x 3¼" deep and houses the screen with a quiet, trouble-free motor-in-roller.
- Endcaps form universal mounting brackets making installation easy whether it is mounted on a wall, suspended or recessed above the ceiling. Both brackets extend ½" above the case.
- The Baronet's pentagonal-shaped steel case has a scratch-resistant white polyester finish. Viewing surface choices are Matt White, Glass Beaded and High Contrast Grey.

OPTIONS

- **Extra Drop**—Up to 8' overall height, either surface color or black. (Surface color standard for AV format screens and black for all other formats.)
- **Black Masking Borders**—Borders are optional for AV format screens and standard for all other format screens.
- **Control Options**—Provided with 3-position in-line operating switch with U.S. plug certified by UL.
