/DenonNorthAmerica

Denon's Music Maniac In-Ear headphones offer exceptional audio performance from a compact & elegant design. Each in-ear headphone features 11.5 mm dynamic drivers tuned to a flat EQ. The Oxygen-free, non-tangle cable, engineered for the purity of sound, includes an in-line 1-button remote control (for control of select Android & Apple devices) and microphone for phone conversations on the go.

SOUNDS LIKE YOU

So acoustically pure, it's like hearing your favorite song for the first time.

When was the last time you really sat and listened to your favorite piece of music? With Denon's line of Music Maniac headphones, you'll want to do it again, and again. At Denon, we're obsessed about delivering the best sound quality. With the Denon Music Maniac AH-C120MA, we've engineered a studio quality sound experience in a very small and compact housing so you can enjoy your favorite music and conduct phone calls while on the go.

11.5 mm dynamic drivers provide studio quality sound.

The Music Maniac AH-C120MA In-Ear Headphones feature 11.5 mm dynamic drivers, are set in a beautifully crafted hybrid material housing, and feature a passive crossover for the highest fidelity sound reproduction.

FITS LIKE YOU

Feel the music. Not your headphones.

Real music aficionados get so immersed in their music that it's easy to spend hours enjoying your favorite tunes in pristine quality. At Denon we believe you should feel the music, not your headphones. In a quest to provide the most comfortable, best fitting headphones, Denon's engineers have studied over 4,000 pairs of ears from people around the world to come up with a design that automatically accounts for the subtle differences in ear shape, placement, canal size, head size and jaw depression. We know that fit and comfort comes from paying attention to the small details. Denon's Music Maniac AH-C120MA In-Ear headphones come with a multitude of ear tips. Choose from Comply Foam TX-400M ear tips or Silicon Ear Tips (S, M, L) to get the right custom fit. A carrying case is also included for extreme portability.

MOVES LIKE YOU

Denon's Radial Cascade Damper system reduces noise from vibration.

Audio enthusiasts often complain about the noise generated from the cable rubbing against their chest when they're moving about. Denon's specially designed Radial Cascade Damper system reduces cable-transmitted vibration noise, enabling you to enjoy studio-quality music on the go.

Enjoy your music, phone calls on the go.

The Music Maniac AH-C120MA In-Ear headphones feature an in-line 1-button remote & microphone for control of select Android, Apple and other smartphone devices. Keep your phone in your pocket or handbag and use the remote to Play/Pause the music or answer/end phone conversations and move effortless through transit stations.

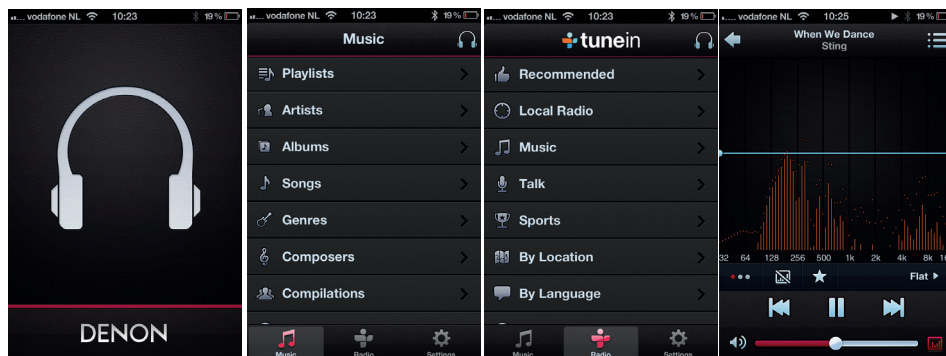

DENON AUDIO APP

Denon Audio App, available for iPhone, iPad, or Android phones enhances the listening experience by providing:

- High quality audio player with instant playlist creation
- Ability to create, save, and share custom EQ curves with an integrated 1000-band equalizer*
- Choose from a myriad of EQ presets
- Denon Music Community allows you to discover new artists, new songs, similar to your music tastes and download from iTunes.**
- Discover tour dates / locations for your favorite artists and purchase concert tickets via the app.
- Update your Facebook or Twitter status about the music you like with a touch of a button.

* Additional cost required for 1,000 band EQ

** Denon Music Community available for iOS version only.
