

EXPLORE™ SERIES STUDENT CHAIR WITH TABLET

Ideal for dynamic student spaces that value easy reconfiguration and where collaborative group work is in demand.

Right hand chair with casters

FEATURES

- Small footprint is ideal for use in classroom spaces and helps to accommodate greater student density without sacrificing the need for collaborative group teamwork.
- Individual work spaces allow for quick and easy reconfiguration from small group work, to large discussion forums, to private individual work and testing space.
- Inexpensive option for creating dynamic student group spaces in common areas like libraries and media centers, student commons, and learning and tutorial centers.
- Multiple powder paint options for the frame allow for the creation of vibrant or calming environments and allow for furniture to be color coded to specific spaces.
- Incredibly durable design will withstand years of K-12 use. The frame has been tested to meet or exceed ANSI BIFMA X5.1 2011 standards for office chairs while the tablet components have been tested to meet or exceed ANSI BIFMA X6.1 2012 standards for educational seating.
- The frame is constructed using 14-gauge flat oval steel tubing, formed using a CNC tube bender, and features arc welded connections for tablet, leg and back support.
- Plastic molded seat and back have a perforated pattern and are contoured for comfort and air circulation.
- Tablet work surface is available for both right and left handed users.
- Chairs are available in a smooth rolling 2" diameter caster or with floor glides.
- All Bretford seating is CAL 117 certified. Certification for CAL 133 is available for an additional fee.
- Proudly made in the U.S.A.

FINISH OPTIONS

Plastic seat and back are available in the choice of four colors, Raven (-R); Anthracite (-A); Neutral Grey (-NG); or Warm Grey (-WG). Plastic finishing components are always Anthracite. The tablet surface is available only in black. The steel frame may be powder paint coated in any of Bretford's paint finishes.

ENVIRONMENTAL & SAFETY SPECIFICATIONS

POWDER COAT PAINT

All steel components are finished using a powder coat paint that greatly reduces VOCs.

RECYCLED CONTENT

Steel components are constructed with prime steel and feature a 25% to 35% post-consumer recycled content. Steel components are 100% recyclable at the end of the product life cycle.

ANSI-BIFMA TESTED

The Explore Student Chair with Tablet frame meets or exceeds relevant ANSI-BIFMA X5.1-2011 standards for office chairs. The tablet and support meets or exceeds relevant ANSI-BIFMA X6.1-2012 standards for educational seating.

CONSTRUCTION SPECIFICATIONS

FRAME ASSEMBLY

The frame assembly is constructed using a 14-gauge flat oval steel tube, which is formed using a CNC tube bender, and features robotic arc welded connections.

TABLET WORK SURFACE

The tablet work surface is constructed using a .75" MDF substrate and is fully sealed with a vacuum formed black plastic coating.

SEAT AND BACK COMPONENTS

The seat and back are constructed with 14% glass filled nylon with high impact modifiers added for flexibility and durability.

WARRANTY

Bretford warrants the Explore Chair Series for 12-years, at date of shipment, against defects from materials or workmanship.

MADE IN THE USA

The Explore Student Chair with Tablet is made at one of Bretford's Chicago area manufacturing facility, employing union labor.
