ADJUSTABLE AV CART RETROFIT KIT

2642NSKIT

Convert your old A2642 or CA2642 adjustable cart to work with today's technology.

Retrofit includes new top shelf and pull out keyboard shelf.

FEATURES

- Converts your original A2642 or CA2642 adjustable cart for easy use with a notebook computer, data projector, DVD player, and scanner.
- Affordable option eliminates the need to buy a completely new cart and reduces waste by finding a new use for old equipment.
- Cart maintains its height adjustability from 26-42" h in 4" increments.
- Large 14" d notebook shelf pulls out on smooth rolling glides and allows you to easily integrate your notebook computer with projectors and other equipment.
- Durable all-steel construction with black powder paint finish feature legs welded to the shelves so minimal assembly time is required. Steel content contains an average 30% post-consumer recycled steel.

Carton Dimension: 26" l x 20" d x 32" h

SUGGESTED SPECIFICATIONS

The 2642NSKIT-BK retrofit kit is designed for use with all A2642 and CA2642 series adjustable audio visual carts. The kit consists of a 24" x 18" top shelf welded to four (4) 14-gauge steel legs, each 21-1/4" long. Each leg has two (2) 1/4" diameter holds near the bottom in the leg crease that mount to the holes on the bottom section of an existing cart. Two (2) steel bars are welded across the short side of the legs and supports a 20" w x 14" d pull out shelf. Shelf attaches using 14" slides and supports a notebook computer or up to 15 lbs of equipment. When secured to the base section of an A2642 or CA2642 series cart, the top shelf can be set at 26", 30", 34", 38" or 42" heights. The retrofit kit uses the leg hardware, rubber mat, and optional electrical unit from the original cart. 2642NSKIT retrofit kits are certified to GREENGUARD Children & Schools Indoor Air Quality standards.
