

## CORE™ 10S CABINET

**Store and charge up to ten mobile devices using AC charging.**

### FEATURES

- Stores and charges up to ten mobile devices, either all of the same model or a variety of models from different manufacturers.
- Plastic molded slots effectively cradle the devices and accommodate device dimensions up to 0.875"W x 12"D x 9.25"H.
- Features an enclosed electrical unit for storage of device power adapters. The electrical unit features an external on/off switch. An integrated cord winder is located on one side of the cabinet to manage the 9 ft. cord.
- The electrical unit features outlet spacing wide enough to handle the vast majority of power adapters.
- Hinged door opens wide to provide easy access to devices and connections.
- Security is provided by 18-gauge steel construction and a combination lock.
- Four height-adjustable guides allow leveling of cabinet.
- May be attached to a work surface or mounted to a wall, providing additional security. The holes to mount the cabinet are internal and inaccessible when the cabinet is locked. A wall mounting plate and instructions are included for securing the cabinet to the wall.
- Ships fully assembled from the factory, ready for immediate use.
- Tested by UL to the IEC 60950 product safety standard for Information Technology Equipment.

Accommodates a variety of AC power adapters

Stores and charges mixed devices - or all the same
