

# GLOBE CRUISER™ AH-NCW500BK

On-Ear Headphones

DENON®

## Wireless, Noise Cancelling, Luxury Traveler's Headphones.

Denon's Globe Cruiser™ On-Ear Headphones are exceptionally portable and provide advanced noise cancelling via Bluetooth® 3.0 wireless or a wired connection (cable included). Featuring a 40mm driver, an integrated amplifier, AAC and aptX decoding for CD-quality audio over a wireless connection, and Denon's advanced noise cancellation circuitry, Globe Cruiser Headphones block out external noise and let you rock out while you travel. A rechargeable battery provides 10 hours of listening enjoyment. But don't worry – should the battery run out of power, you can still listen to music in passive mode (with the cable connected). Designed to fold flat into a case the size of an iPad (case included), these headphones travel easily with you. Denon's control wheel allows for control of Apple® iPhone®, iPad™ or other Bluetooth devices, easily over a wireless connection. These headphones also feature dual integrated microphones on the ear cup for clear phone conversations. Denon's patent-pending, pentagonally-shaped memory-foam ear pads, adjustable headband, and two-axis ear cup design (for 360-degree articulation) give a perfect fit and maximum comfort for long listening periods. Further enhance your listening experience by downloading the Denon Travel app, available for Apple® iPhone®, Apple iPad™, and Android® smartphones.

## Denon headphones Sound Like You, Fit Like You, Move Like You.

Denon Headphones are engineered from the ground up to provide the best-in-class personal listening experience for your lifestyle. Denon's line of Globe Cruiser™ Headphones are geared towards the frequent traveler, addressing the needs of this multitasking individual, with a luxury traveler's headset that Sounds Like You™, Fits Like You and Moves Like You, so you can feel the music like never before.
