Integrated Network AV Receiver

IN-Command
S E R I E S™

DENON®

So much to experience, Connected, Collected.

So easy to command:

Your IN-Command Series™ Integrated Network A/V Receiver is the heart and brain of your networked home entertainment center.

Enjoy a wide variety of music and video entertainment in separate rooms.

The AVR-X3000 A/V receiver lets you enjoy both 3D video and immersive surround sound to your heart's content. It is equipped with a powerful 7-channel amplifier that delivers a rich, enveloping surround sound via Audyssey DSX or DTS Neo:X for height or wide channels in a 7.1-channel configuration. The AVR-X3000 provides numerous features for enjoying entertainment, including AirPlay® for streaming music from an iTunes® library, Spotify playback, internet radio broadcasts, playback of music stored on a networked PC or hard disk, and HD audio (up to 192 kHz) music sources. The AVR-X3000 even has a multi-zone feature that lets other people enjoy music or video entertainment from a separate source in a different room while you enjoy your own programs in the main room.

State-of-the-art Denon Solutions for Maximizing Content Quality
