

Two Bestseller PA Solutions Deliver Maximum Value Year after Year

wireless

Wireless PresentationPro™

Includes volume/mute remote

With all the power and support of the wired PA300+, but with UHF flexibility for hands-free voice & audio amplification, the portability & ease of use of the PA319 make it the ideal companion for mobile presenters in auditoriums, hotels, conference rooms or even for outdoor uses. For flexibility, it accepts one 16-channel UHF mic and two wired mics at the same time. Its frequency channel can even be set to receive wireless audio from PowerPro™ (PA919SD or PA919) speakers. This allows schools to stretch their budgets and serve even larger groups.

A single 30-watt unit is powerful enough for up to 350 people & includes a rugged mounting bracket and a volume/mute remote for distant operation. **PA319** \$543

PresentationPro™

Audio support needs to be simple to operate and schools and districts rely on the PresentationPro to fill classrooms, cafeterias, and meeting rooms with high-quality amplified audio. Seamlessly connect with computers, LCD projectors, whiteboards, multimedia players and other sources to enhance learning. The 30W PresentationPro delivers additional audio support with a mic connection and the ability to attach another speaker. A single unit is powerful enough for up to 350 people and includes a rugged mounting bracket and a volume/mute remote for distant operation.

PA300+ Wired \$400

PA300-P PA300+ with wired XLR mic (PADM-515), tripod, case \$676
