

Stereo Jackbox

This 10-position jackbox provides an affordable alternative to powered learning centers. Individual volume control customizes audio for all students.

1210AVPS 10-position \$48.50

Tablet, Computer & Smartphone Jackbox

Tablet and smartphone technologies are creating new ways for differentiated digital learning on a personal and small group basis to listen to content, lessons and stories. Now also including tablets, computers and smartphones as possible audio sources, the key to best distributing the sound to connected headphones is the jackbox.

The stereo JB310 jackbox accommodates up to ten headphones with today's more popular 3.5mm plug. It has silver-plated contact points for a solid connection and moisture resistance, individual volume controls, rugged ABS plastic housing for durability, 1/4" and 3.5mm plugs to connect to a variety of audio sources.

JB310 \$48.50

the JB310

USB Jackbox

Capture student responses with this unique jackbox. The USB jackbox not only distributes audio for listening like a traditional jackbox, but also captures vocal responses – enabling student collaboration. Also, teachers can actively monitor reading progress and language acquisition. By connecting it to a USB-equipped mobile device, PC or Mac, students can create podcasts with the 1216USB to demonstrate communication skills.

1216USB-6 USB jackbox with six 3064AV headsets \$192
1216USB \$81
