*The Bar is set High with your customer service,
I wanted to thank you so much for your help. You can't imagine how
difficult it has been to replace so much lost to the flooding. We are still
recovering. This system is going to have lots of use and will be a won-
derful addition to our efforts. The bar is moved ever higher each year
and we have a reputation for setting that bar, so you can understand
how important your equipment is to us. . . We have only begun to
fight and have several things still on our list. Thanks again!"
