TABLES

RHOMBII® FLIP TOP TABLE

RHOMBII® flip top tables are designed to accommodate. The tabletops flip up for easy transport and nest for storage. Each individual table has optional access to power from a single wall outlet.

U.S. Patent Pending
U.S. Patent No. D640, 075

RHOMBII® 4-LEG TABLE

RHOMBII® 4-leg fixed tables provide a large work surface, and optional built-in power modules. Locking casters or glides simplify mobility and increase stability. U.S. Patent Pending

HERE FLIP TOP TABLE

Here flip top tables come in rectangle and half moon shapes that can be combined to create the ideal layout for your space. With horizontal and vertical cord management built in, it's easy to integrate the use of mobile devices.

HERE FIXED TABLE

The quarter round shape of the Here fixed table can seamlessly join from side to side, giving you the freedom to configure your space as you see fit. Tables come with cord management to support the use of technology.

PLUS OCCASIONAL TABLE

Combining a seamless, curved design with gorgeous glass, our Plus tables are sleek, elegant, and a perfect match with our Plus seating solutions. Tables come long or short.

SEATING

PLUS CHAIR

Plus armed and armless chairs available with and without a tablet. Optional power plates that house 120V and USB power outlets can also be added to select models.

PLUS SOFA

Plus sofas are designed with curves to maximize comfort. Sofas can seat between two and three people, are offered with arms or without and can be powered to support the mobile devices of today.

PLUS BENCH

Plus benches are modular and lightweight. Put several together for a larger seating area. Pull them apart for individual seats. Available in short and long.

BOARDS & PRIVACY SCREENS

HERE MOBILE BOARD

Here mobile boards are double-sided and can be specified with porcelain dry erase or fabric tackboard. Easily move, gang, and nest boards together so you can position them any way you choose to present from anywhere in the room.

LIQUID® PRIVACY SCREEN

Our freestanding, mobile Liquid® privacy screens provide the privacy and separation of a panel system without the heavy divider walls of a cubicle. With this flexible, lightweight solution, you can create a space that's free from distraction without sacrificing the need for collaboration and communication.

HERE WALL RAIL SYSTEM

Sometimes it's the simplest solution that provides the greatest results. With double-sided boards that attach to library walls, your patrons' presentations can be supported from every angle. The Here rail system is a communication tool designed to simplify, organize, and capture ideas as they're discovered. Boards roll seamlessly on a track attached to the wall, saving space and increasing the options for note taking and presentations.

EASELS

PRESENTATION ENVIRONMENTS® MOBILE EASEL

Presentation Environments® mobile easel's double-sided dry erase finish provides a large writing surface. Adjustable pegs support most flip chart pads.

POWER

FLUID DOWN POWER SYSTEM

The Fluid down power system features a 4-outlet electrical unit that mounts below the work surface and can daisy chain up to 4 tables (16-outlets) off a standard 15 amp electrical outlet.

POWER STRIP

The simple solution for your power needs. Stand alone power strips feature 6-outlets and a 20-foot power cord. The most economical solution to powering a small number of tables.

FLUID UP POWER SYSTEM

Tables with Fluid up power give you flexibility. Once installed, the Fluid up power system allows up to eight tables to daisy chain off of a single electrical circuit.

STATEMENTS OF ASSURANCE

BRETFORD HISTORY

Bretford designs and manufactures dependable furniture products built to improve how people work and learn. Founded in 1948 and headquartered in Franklin Park, Illinois, we're dedicated to the design and manufacture of sustainable furniture solutions that will last for decades. With nearly 350 employees and 450,000 square feet of production space, the company offers smart furniture solutions that support evolving technology.

SUSTAINABILITY

Since 1948, Bretford has been committed to producing high-quality products that add value to people's work and learning experiences. From the start, we've worked to minimize waste throughout the product life cycle. Our company-wide **Sustainability@Bretford** program has goals that put the environment first. We've been working to:

- Eliminate waste
- Eliminate harmful emissions
- Use renewable energy
- Create a closed-loop process so that every Bretford product can be recycled at the end of its lifecycle
- Integrate sustainability into our culture so that opportunities for change and improvement come from all areas of the business
- Provide education and resources to all departments and facilities to continually improve our environmental performance
- Share knowledge, ideas, and resources with our employees, our customers, our business partners, and our local communities
- Use our environmental performance metrics as an informational support tool for day-to-day and long-term business decision-making

And as we look further into the 21st Century, our goal is to create even healthier product options for our customer and for the planet. We have significantly strengthened our commitment to pursuing sustainable business practices, and will continue to focus on four primary areas:

- **Waste Reduction** | Our goal is to reduce our consumption of electricity, water and natural gas, our annual volume of waste to landfills, and our greenhouse gas emissions.
- **Green Documentation** | Our goal is to look at the raw materials of each major product group, summarize the information, and publish an Environmental Summary.
- **Design for the Environment** | All materials, products, and processes are being evaluated to ensure they are as friendly to the environment as possible.
- **Materials Management** | We're exploring innovative materials that are greener, leaner, lighter, stronger and safer, including tabletop options, the elimination of hazardous and toxic materials/finishes, and high recycled-content components.

GREENGUARD® CERTIFICATION

Bretford has achieved GREENGUARD GOLD Certification for many of its tables, seating, carts and accessories used in commercial business and education facilities. Through this designation and in partnership with facilities managers, designers, architects, and dealers, Bretford is helping to create healthier learning, meeting, and working environments, particularly for children. By specifying or installing Bretford GREENGUARD GOLD Certified products, institutions are closer to achieving valuable LEED Certification, the nationally accepted benchmark towards the design, construction and operation of green buildings

CarbonNeutral® COMPANY

To achieve CarbonNeutral company certification, Bretford is working with The CarbonNeutral Company, a world-leading provider of carbon reduction solutions. Bretford has reduced its greenhouse gas (GHG) emissions in accordance with The CarbonNeutral Protocol, the global standard for carbon neutral certification. The program involved an independent assessment of the CO2 emissions produced from energy consumption, transportation, business travel and waste followed by an off set-inclusive emissions reduction program. This means that for every one ton of GHG emissions that Bretford produces, it purchases a verified carbon offset which guarantees an equivalent amount of GHG emissions is reduced from the atmosphere through a renewable energy or clean technology project.

CarbonNeutral PRODUCT

For many products, a significant portion of the carbon footprint is embedded in the extraction, processing and transport of the materials that are used to make the product. With growing interest in measuring and reducing these life cycle emissions, as evidenced by the implementation of Executive Order 13514, Bretford wanted to take a leadership position with one of its most recent introductions, EDU 2.0. Bretford is proud that the EDU 2.0 line of products is one of the first in the contract furniture industry to achieve CarbonNeutral product certification. As a CarbonNeutral company Bretford understands that true leadership in reducing its carbon footprint means taking responsibility for the life cycle emissions of its products.

HOW DID WE DO IT?

The first step on the CarbonNeutral journey was a cradle to customer greenhouse gas emissions life cycle assessment.

The assessment measured emissions from:

- Extraction, processing and transportation of raw materials
- Production, packaging and storage within our manufacturing facilities
- Volume and mode of transport to customers

The second step was to reduce emissions to net zero through increased efficiency and the use of high quality carbon offsets.

In October of 2010, Bretford underwent an efficiency initiative by replacing all the lighting fixtures in both their Franklin Park and Schiller Park, IL. manufacturing facilities. HID/sodium vapor fixtures were replaced with florescent fixtures. Not only were Bretford's plants 75% brighter, Bretford reduced their overall kilowatt hours by 40% for 2011, when compared to 2010. Finally, to reduce the carbon footprint, to net zero we support several carbon offset projects in cooperation with The CarbonNeutral Company including:

SONGYUAN WIND POWER PROJECT

Located in Songyuan City in the Jilin Province of The People's Republic of China, this wind power project delivers zero-emissions renewable electricity to China's Northeast China Power Grid. The project is validated and verified to the Verified Carbon Standard (VCS) and has also registered and issued credits with the Clean Development Mechanism (CDM).

MISSISSIPPI VALLEY RESTORED ECOSYSTEM PROJECT

The project aims to reforest one million acres of the Lower Mississippi Alluvial Valley. The region is one of the most important ecosystems in North America, but has suffered sustained deforestation. Tree planting will reduce an estimated 200 tCO₂e per acre, as well as creating revenue for landowners, jobs in the area, and improving water quality and biodiversity. The project developer received the 2009 Innovation Award from the Southern Growth Policies Board.

FISCALINI FARMS METHANE CAPTURE

Located in Modesto California, this project uses an anaerobic digester system to capture methane from cow manure. The methane produced is used to power a 710 kW CHP generator that produces electrical energy to run the Fiscalini Cheese Company's cheese making facility.

Bretford is proud to offer an entire product line that reinforces our commitment to sustainability and enables specifiers of our products to make smart choices about the products they select.

SAFETY AND PERFORMANCE STANDARDS

Bretford offers a variety of products that have been tested and validated for safety and performance. Products that are UL and ETL Listed undergo random annual inspections by UL to ensure quality controls and UL compliance.

Using in-house or third party verification, most of Bretford products are tested to meet or exceed the appropriate ANSI/BIFMA and ANSI/UL Standards for durability and safety.

ANSI/BIFMA safety and performance standards are developed by the BIFMA Engineering Committee and intended to provide manufacturers, specifiers, and users with a common basis for evaluating safety and performance. Bretford chose Advanced Furniture Testing (AFT) as our third-party BIFMA test partner. AFT is an A2LA accredited ISO17025 lab for all BIFMA and the Canadian equivalent standards.

Bretford pursues the UL and ETL (Intertek) Marks for the entire Store and Charge line to ensure the entire "system" is safe for use by our customers and in the classroom. Application of the ANSI/UL 60950-1 standard is intended to reduce the risk of injury and property damage.

A third-party Nationally Recognized Testing Lab (NRTL) should test for flammability, shock hazards, surge protection, stability, and durability. UL and Intertek evaluate everything from circuit boards to wires, relay to capacitors, and metal to plastics.

Bretford partners with UL and Intertek as our global NRTL's of choice.

UL LLC.

Underwriters Laboratories Inc. was founded in 1894 to establish, maintain and operate independent laboratories for the examination and testing of devices, systems and materials. This is in order to determine their relation to hazards of life and property and to ascertain, define and publish standards, classifications and specifications affecting such hazards. For more information, visit UL.COM.

INTERTEK

Intertek is a leading provider of quality and safety solutions serving a wide range of industries around the world, including fuel testing and inspection.

Intertek people add value to customers' products and processes, supporting their success in the

global marketplace. Intertek supports customers through its network of more than 1,000 laboratories and offices and over 36,000 people in more than 100 countries. For more information, visit INTERTEK.COM.

ADVANCED FURNITURE TESTING

AFT offers furniture testing services to ANSI/BIFMA standards, standardized equipment and custom test machinery. Excellence in furniture testing comes from experience with industry leaders and superior equipment capability. Active BIFMA members since 2008. A2LA accredited since 2008. For more information, visit FURNITURETEST.COM.

ROHS

Bretford products meet the current requirements of Restriction of Hazardous Substances (RoHS) Directive 2002/95/EC. RoHS compliance certificate documentation is on file and available upon request.

WARRANTY

Bretford warrants that all products it manufactures are—at date of shipment—free from defects in material or workmanship. Any product under normal use, regardless of the number of shifts during which the product is in use, fails to function within the time periods specified below, and found defective in material or workmanship by Bretford inspection, will be repaired without charge to the buyer, or, at the elections of Bretford, a credit will be allowed up to the invoice purchase price of the product.

This warranty is inapplicable where, in the judgment of Bretford, the defect is attributable to abnormal wear, misapplication, abnormal use, misuse, modification or damage after shipment, including damage caused by the buyer's failure to properly maintain the item, or other similar cause.

Bretford EXPLORE®, MOTIV™, Plus, Liquid®, RHOMBII®, Presentation Environments®, Here, Store and Charge and Basics Series Furniture—Twelve (12) years

Three (3) shift facilities, from date of shipment, labor included (excluding fabric and electrical and data assemblies)

Standard Warranty Exceptions Apply

Electrical & Data Assemblies

Components—One (1) year from date of shipment

Speakers—One (1) year from date of shipment

Gas Shock Assemblies—One (1) year from date of shipment

Seating Wood & Frame

Bretford warrants the wood and metal frames used in our soft seating products to be free from design defects in materials and workmanship for a period of twelve (12) years beginning on the date of shipment.

Seating Foam

For a period of five (5) years, Bretford warrants the foam used in our soft seating products to be free from design defects in materials and workmanship, beginning on the date of shipment. This does not include softening and flattening of the foam that occurs as a result of normal use and aging.

Seating Fabric/Leather

Warranty of fabric and leather offered as part of the Bretford Grade-In program is dictated by the materials manufacturer and passed on accordingly. Customer Own Material is not warranted.

RESOURCES

BRETFORD CUSTOMIZATION SERVICES

Bretford has hundreds of standard products designed to improve the way our customers work and learn. However, we understand that sometimes you need a more tailored solution. Bretford Customization Services will help you get exactly where you want to be.

CUSTOMIZATION SERVICES

When a standard Bretford product does not perfectly match your specifications, Bretford Customization Services can assist you in creating a custom solution.

From modifying product dimensions and component materials to increasing storage capacity or adding power options, our Chicago based design and manufacturing teams have the expertise to turn your requirements into a product that fits your needs.

BRANDING SERVICES

Sometimes all you need to create the perfect solution is a little branding. Bretford Customization Services has you covered there as well. Whether it is a custom colorscheme or recreating your school or corporate logo, Bretford Customization Services will work with you to design a product that is uniquely yours.

GRADE-IN PROGRAM

The Bretford Grade-In Program has been designed to offer a host of benefits to customers for all Bretford MOTIV™ and Plus Series soft seating, MOTIV™ stools, EXPLORE® chairs and stools and Here and Liquid® mobile boards and panels. Bretford has partnered with Momentum* fabrics and Wollsdorf Leather to offer hundreds of options that are now graded into the Bretford price list. Customers simply pick a graded fabric, vinyl or leather pattern, grade and color, place an order with Bretford and Bretford will take care of everything else. Material testing is no longer required.

Upholstery pricing for the Grade-In Program is available at Bretford.com. Color options as well as fabric and vinyl samples can be viewed and ordered through The Momentum Group's website at www.themomgroup.com or through Wollsdorf Leather for leather samples at sales@wollsdorfleather.com.

Customer Owned Material (COM) and Customer Owned Leather (COL) orders are still welcome. COM nor COL materials are required to be tested, however customers will need to purchase their own materials and send it directly to Bretford for the manufacturing process.

*Bretford offers all Momentum Textiles as standard. Loomsource nor Textus are offered as a Bretford standard.

HOW TO BUY

Bretford has a worldwide dealer network with thousands of partners located across the United States, Canada, and abroad that can assist you with product selection, purchase, and installation. If you would like to locate a Bretford dealer in your area, please call our Customer Care Team at 800.521.9614 or email to customerservice@bretford.com.

CUSTOMER CARE AND PROJECT DESIGN TEAMS

The Bretford Customer Care Team can help with questions pertaining to orders, delivery, ordering sales literature, warranty claims, product information, finish samples, and technical support.

Phone 800.521.9614
Fax 800.343.1779
E-mail customerservice@bretford.com

Bretford also offers project design support. If your project entails an entire Bretford solution and you are in need of project layout support, contact your Bretford Sales Representative for further information and assistance. The Bretford Project Design Team can assist you with CAD drawings and an entire bill of material for your specific project.

SHOWROOM INFORMATION

Want to sit in one of our Plus chairs? Want to see how easy it is to nest a RHOMBII® Flip Top Table? The Bretford showroom is located in the historic Chicago Merchandise Mart. Contact your local Bretford Sales Representative to set up a tour.
