

DRESS KITS FOR STAGESCREEN

GIVES A PROFESSIONAL APPEARANCE TO THE STAGESCREEN

Skirt partially attached.

Skirt attached with DuraLoop and magnetic fasteners

Universal valance bars. Valance attaches with DuraLoops to top posts.

FEATURES

Create a polished theatre-like presentation with a StageScreen Dress Kit. Drapery curtains surround the viewing surface, pulling the audience's focus to your presentation on the screen.

All Dress Kit fabrics are flame resistant, meeting fire safety codes, and now are available in Inherently Flame Retardant (IFR) Velour. In addition to framing your presentation, the velour curtains will hide projection equipment, shield projector light from the audience, and help hold back ambient light from entering the projection area.

Like the StageScreen itself, the StageScreen Dress Kit is modular and universal for any size screen. Extendable wing bars and unique valance bars attach to the StageScreen's viewing surface posts around the perimeter of the screen. The skirt utilizes DuraLoops™ on each end, in addition to revolutionary magnetic connectors built into the skirt for surprisingly fast and easy attachment.

Extendable wing bars adjust curtain level to the height of the screen or to the top of the valance. Valance bars can be used for any screen width. They simply attach every 18" to the top of the screen frame. The valance fabric and side curtains are equipped with the built-in DuraLoops.

A complete Dress Kit includes a 68" tall skirt, 14" tall valance and universal valance bars, and a pair of 32" wide side drapes and adjustable drapery bars.

OPTIONS

- **Fabric**—13.4 oz. IFR velour (Inherently Flame Resistant Velour) is offered in black (standard), 16 oz or 20 oz Cotton Velour available upon request (Black or Navy)
- **Carrying Case**—A wheeled heavy-duty polyethylene carrying case is standard for all StageScreen Dress Kits.
