

**New!**

## Radio Hailer

### Maximize Emergency Management

Easy to use in emergency situations. Lets you respond and communicate general information and alerts up to one mile or more. Great addition to mobile command centers.

- Broadcast up to one mile away. Project sound up to half mile.
- Use your own 2-way radios or AmpliVox 2 Watt MURS frequency transceivers (does not require FCC licensing). Two handholds are required: one acts as the receiver, the other as the transmitter.
- Radio holder included.
- Short range wireless transmitter and headset microphone also included for wireless use without 2-way radios.
- Emergency Siren Button: Loud 120 dB siren.
- Weather resistant horn. Power rating: 50 Watts; SPL 108 dB.
- Battery operation. 10 "D" cells or optional rechargeable NiCad battery.
- Tripod mountable.

#### All models include:

- Transmitter
- Headset mic
- Lapel mic
- Shoulder strap
